

ADVANCED NAPPY DISPOSAL SYSTEM

A new baby means extra emphasis on hygiene in the home and a real need for the Tommee Tippee Hygiene Plus nappy disposal system. It individually wraps and seals dirty nappies in a multi-layer, anti-bacterial film, locking away germs and odour.

Once the nappy is sealed the easi-push plunger pushes the nappy away into the tub, where the germ-seal film continues to kill bacteria, providing long lasting hygiene protection for the family home.

5 MILLION PARENTS CAN'T BE WRONG!*

* based on previous sales of Sangenic nappy disposal systems
** tested against leading supermarket brand
† tested with size 3 nappies (5-9kg)

MAXIMUM HYGIENE PROTECTION

- advanced **germ-seal™** film with anti-bacterial barrier, keeps on killing germs even inside the tub
- **easi-push™** plunger pushes wrapped nappies into the tub

UNBEATABLE ODOUR PROTECTION

- **twist-lock™** technology individually seals each nappy, locking away germs and odour
- scientifically proven to be 100 times more effective at odour prevention than nappy sacks**

ULTIMATE CONVENIENCE

- stores nappies hygienically in the tub to save endless trips to the bin
- holds up to 28 nappies at a time†
- empty at your convenience

FIRST CASSETTE COMES ASSEMBLED & READY TO USE

SIMPLE & EASY 3 STEP SYSTEM
